## THE TOTAL REVENUE CYCLE SOLUTION FOR PHYSICIANS

Lytec now offers medical practices a way to increase their office productivity and cash flow with **Lytec Claims Manager**. Together with Lytec 2008, you can have an all-payer solution that submits and tracks each claims status related messages from initial transmission to final payment in a true paperless format.

**Lytec's Claims Manager** is an Internet-based program that is secure and easy to use. **Lytec's Claims Manager** gives you the ability to track the current status and every response message that applies to an individual claim. Now, you can eliminate the need for paper reports and work your claims in an organized manner including selecting by claim status, provider, payer, subscriber filing dates, batch and dollar amount.

**This is the Total Claims Management Solution for Physicians.**

Providing you with time-saving tools and powerful, easy-to-use functionality are crucial. **Lytec's Claims Manager** offers a suite of real-time electronic healthcare transactions including claims, claim status, insurance eligibility verification, remittance advice and claim scrubbing for clean transmission.

**Lytec's Claims Manager** allows the user to produce letters such as proof of timely filing, claims status and appeal letters. Lytec will automatically populate the letter with the information from the claim record. Yet another time saving feature from Lytec's powerful revenue cycle tool.

**Proof of Timely Filing Report**
